Solution provides antivirus protection for even very large wide-area networks. The scalable Symantec System Center management console offers real-time communication with clients and servers from a single point, allowing convenient distribution of new virus definition sets. The ability to scan machines, lock down settings, and monitor system activity anywhere on the network offers protection from attack, while Symantec's NAVEX technology reduces TCO by delivering updates to the software engine without requiring a reboot. This is an integrated suite of antivirus products that offer hands-free detection, analysis, and repair of macro viruses across an organization of any size. It includes Symantec System Center, Norton AntiVirus Corporate Edition 7.0, and Norton AntiVirus Corporate Edition 7.0 for NetWare. And, bundled with this suite edition are also NAV (Norton AntiVirus) for OS/2 Server and Client,NAV for Macintosh Client, NAV for Lotus Notes/Domino for NT, NAV forMicrosoft Exchange for NT, NAV for Lotus Notes/Domino for OS/2, NAV for Internet Email Gateways for NT, and NAV for Firewalls for NT.

Norton AntiVirus Enterprise Solution is designed to:

- Help IT personnel maintain service-level agreements.
- Simplify installation and management of desktop and file servers through centralized administration across multiple platforms from a single console.
- Deliver highly automated, "hands-free" macro virus protection, including scheduled updates of programs, automatic delivery of virus definition files, and an automatic link to the Symantec AntiVirus Research Center (SARC).
